Latin 313: **The Latin Bible: Romans** [Dr. Almanzar]

In this course students will translate and analyze the Latin text of St. Paul's letter to the Romans. Special attention will be given to the nature of "vulgar" Latin as a vehicle for conveying Paul's revelatory message. Additionally, comparisons will be made between the standard Vulgate edition of Romans and the pre-Vulgate translations known as the *Vetus Latina*. The goal is to encounter St. Paul in the same language as many of our greatest saints.
