

Federal Aid and Students Convicted of Possession or Sale of Drugs

A federal or state drug conviction (but not a local or municipal conviction) can disqualify a student for FSA funds.

Convictions only count against a student for aid eligibility purposes (FAFSA question 23c) if they were for an offense that occurred during a period of enrollment for which the student was receiving federal student aid—they do not count if the offense was not during such a period, unless the student was denied federal benefits for drug trafficking by a federal or state judge. Also, a conviction that was reversed, set aside, or removed from the student's record does not count, nor does one received when he was a juvenile, unless he was tried as an adult.

The chart below illustrates the period of ineligibility for FSA funds, depending on whether the conviction was for sale or possession and whether the student had previous offenses. A conviction for sale of drugs includes convictions for conspiring to sell drugs.

Possession of Illegal Drugs

Sale of Illegal Drugs

1st Offence	1 year from date of conviction	2 years from date of conviction
2nd Offence	2 years from date of conviction	Indefinitely
3rd Offence	Indefinitely	

If the student was convicted of both possessing and selling illegal drugs, and the periods of ineligibility are different, the student will be ineligible for the longer period. Schools must provide each student who becomes ineligible for FSA funds due to a drug conviction a clear and conspicuous written notice of his loss of eligibility and the methods whereby he can become eligible again.

A student regains eligibility the day after the period of ineligibility ends (i.e., for a 1st or 2nd offense); or when he or she successfully completes a qualified drug rehabilitation program that includes passing two unannounced drug tests given by such a program. Further drug convictions will make him ineligible again.

Students denied eligibility for an indefinite period can regain eligibility after completing any of the following options:

A student regains eligibility the day after the period of ineligibility ends (i.e., for a 1st or 2nd offense); or when he or she successfully completes a qualified drug rehabilitation program that includes passing two unannounced drug tests given by such a program. Further drug convictions will make him ineligible again.

In such cases, the nature and dates of the remaining convictions will determine when the student regains eligibility. It is the student's responsibility to certify to you that she has successfully completed

the rehabilitation program; as with the conviction question on the FAFSA, you are not required to confirm the reported information unless you have conflicting information.

When a student regains eligibility during the award year, the college may award a Pell Grant for the current payment period and Direct loans for the period of enrollment.

Standards for a qualified drug rehabilitation program

A qualified drug rehabilitation program must include at least two unannounced drug tests and must satisfy at least one of the following requirements:

- Be qualified to receive funds directly or indirectly from a federal, state, or local government program.
- Be qualified to receive payment directly or indirectly from a federally or state-licensed insurance company.
- Be administered or recognized by a federal, state, or local government agency or court.
- Be administered or recognized by a federally or state-licensed hospital, health clinic, or medical doctor.
